

Salama from the Sensenigs

We've arrived in N'Djamena!

Thank you all for your prayers. We had no complications and arrived in N'Djamena with all of our bags.

New Beginnings

We have slowly been discovering our new location. Every day we go exploring and come home with new knowledge, from where to buy vegetables, milk, fruit and bread (four separate locations) to how to cross the busy street (follow the locals and pray for mercy!). We have been very blessed to land at a guesthouse that is quite well set up with reliable electricity and water. It even has a playground for the children, and is patrolled by Speedy the tortoise.

Arabic

After a few days of getting settled we started Chadian Arabic lessons. Our teacher, Fati, is very patient with us and has even accommodated to our multigenerational approach.

Flooding

While we are quite well set up here at the SIL guesthouse, many Chadians are suffering from flooding. The heavy rains this week have destroyed belongings and houses, and disrupted the lives of thousands.

Left: The street beside the guesthouse.

With Mennonite Central Committee country representatives Samuel and Winfred, and country coordinator Jonathan.

Praises:

- For a good transition and a good place to land.
- For community here, including MCC staff, hospital and university colleagues, and expatriate families.

Prayers:

- For the children's start of the school year next month.
- For those affected by the flooding.
- For continued adjustment to culture and language.

Thank you for your support!
